This Privacy Policy applies to the privacy practices of the DSPT Kaggle Days Meetup website, located at <http://kaggledaysmeetup.datascienceportugal.com>, further referred as the Website.

By visiting or otherwise using the Website, you consent to the collection, use, and disclosure practices of DSPT, and other activities as described in this Privacy Policy, and any additional privacy statements that may be posted on an applicable part of the website, such as the online registration tool. If you do not agree and consent, please discontinue the use of the website.

## What is personal data?

For the purposes of this Privacy Policy, “**Personal Data**” means information about an identifiable individual.

## What type of Personal Data do we collect?

As you use our Website, we collect certain data about you and your use of the Platform. The data we collect falls into three different categories: (a) information you provide us; (b) information we collect from you automatically when you use our Website; and (c) information we collect from our partners and other sources.

### **Information you provide**

DSPT may collect information you provide directly to DSPT and/or its service providers (the “**Service Providers**”) when you use our website. This includes, but is not limited to:

- 1) Personal Data you provide when you register for the DSPT Kaggle Days Meetup through our registration forms or the Meetup platform.
- 2) Personal Data you provide when you participate in a survey or promotion.
- 3) Personal Data you provide when you register for a mailing list.

### **Information collected automatically**

DSPT, its Service Providers, and/or DSPT's partners or affiliates may automatically collect certain information about you when you access or use the Platform ("**Usage Data**"). Usage Data may include IP address, device identifier, browser type, operating system, information about your use of the website, and data regarding network connected hardware (e.g., computer or mobile device).

The methods that may be used on the website to collect Usage Data include:

- 1) Log Information: Log information is data about your use of the Platform, such as IP address, browser type, internet service provider, referring/exit pages, operating system, date/time stamps, and related data, and may be stored in log files.
- 2) Information Collected by Tracking Technologies: Location-identifying technologies, device tokens, and other tracking technologies now and hereafter developed ("**Tracking Technologies**") may be used to collect information about interactions with the Platform.
- 3) Cookies: Cookies are alphanumeric identifiers that we transfer to your computer's (or other device's) persistent storage medium (e.g., hard drive) through your browser to enable our systems to recognize your browser and tell us how and when pages on our Website are visited and by how many people. We use cookies to enhance visitors' experiences, to learn more about their use of the Website and to improve quality. Company cookies do not collect Personal Data, but we may combine the general information collected through cookies with Personal Data to tell us who you are or what your screen name or email address is.

Most browsers have an option for turning off the cookie feature, which will prevent your browser from accepting new cookies, as well as (depending on the sophistication of your browser software) allowing you to decide on acceptance of each new cookie in a variety of ways. We strongly recommend that you leave the cookies activated, however, because cookies enable you to take advantage of some of our Website's most attractive features.

Ads appearing on the Website may be delivered to users by our advertising partners, who may set cookies. These cookies allow the ad server to recognize your computer or other device each time they send you an online advertisement to compile information about you or others who use your computer or device. This information allows ad networks to, among other things, deliver targeted advertisements that they believe will be of most interest to you. This Privacy Policy covers the use of cookies by Company and does not cover the use of cookies by any advertisers.

Some information about your use of the Platform may be collected using Tracking Technologies across time and services, and used by DSPT's and third parties for delivering the website.
